AHIMA HoD Updates

AHIMA's key accomplishments for 2022

- Culture work at the Board and staff levels to guide future planning
- AHIMA's advocacy work on behalf of the HI profession – more than half of AHIMA's delegates responded to calls to action
- Workforce enhancement by looking at credentials, education opportunities, job competencies, mentoring, etc.
- Member Value, from recruitment and retention to ramping up our engagement with member

New Ideas to address Industry Trends:

- Adding micro credentials
- Personalized learning pathways
- Mentoring/sponsoring
- Recruitment and expanding domains.

On the Advocacy Front

Repeal Section 510 from the Fiscal Year 2023 (FY23) Labor-HHS appropriations bill.

For the fourth year, the US House of Representatives has repealed Section 510 from its Labor-HHS appropriations bill, and for the second year the Senate draft Labor-HHS bill also removed Section 510 from their bill. We need you to write your members of Congress to ensure the ban remains out of the final version of the bill. Section 510 has been a barrier to moving forward a national strategy on patient identification, and this is the year we must ensure its repeal.

AHIMA needs your help to reach out to your members of Congress and urge them to support the repeal of Section 510.

Including a Public Policy Institute on March 20- *Improving individuals' health journey through access to information, privacy, and equity:*

- Ensuring the quality and integrity of health information
- Advancing healthcare transformation

AND.... Capitol Hill Day on March 21.
